Press Release

Government of India introduces e-FRRO Portal for Foreign Nationals visiting India

Starting from 12th February 2018, Government of India has digitalised the process of FRRO (Foreigners Regional Registration Office) registration, visa extension, etc. for foreign nationals visiting India by introducing e-FRRO Portal (<https://indianfrro.gov.in/eservices/home.jsp>) with the aim to provide faceless, cashless and paperless service to foreign nationals visiting Bengaluru, Chennai, Delhi and Mumbai.

Using this application, foreigners can create their own USER-ID by registering themselves and applying online through registered user-id for various visa and immigration related services in India, viz. registration, visa extension, change of address/passport, visa conversion, exit permit etc. Applicants will be informed through e-mail/SMS alerts about service granted or rejected. The requisite immigration/Visa document e.g. Registration Permit/Certificate (RP/RC), Visa Extension Certificate, etc. will be sent by post on the address specified and on the registered email ID.

Foreigners would not be required to mandatorily visit FRRO/FRO office for grant of above services. However, in certain exceptional cases, the applicants might be asked to visit the FRRO/FRO on scheduled date and time for interview. In case of exigency, the foreign visitors can visit the FRRO/FRO office directly for grant of required service.

Place: Belgrade

Date: February 27, 2018
